Mostra Exhibition Gallery - Website & Automation Plan

1. Project Overview

Build a full-stack modern website for “Mostra Exhibition Gallery” based in Rajkot, India.

The website includes frontend design and backend automation integrating Instagram and WhatsApp.

2. Frontend Requirements

- Homepage with hero section and CTA buttons

- About Page (brand story, mission)

- Services Page (Exhibition Hosting, Artist Collaboration, Brand Promotion, Event Curation)

- Gallery Page (Instagram-synced grid)

- Collaboration Page (lead form)

- Contact Page (form, map, WhatsApp button)

- Footer (Privacy Policy, Terms, Social links)

3. Backend Requirements

- CRM system to store and categorize leads

- WhatsApp integration via Interakt (auto-replies + chat button)

- Instagram feed integration

- Email automation (confirmation + admin alerts)

- Admin dashboard for managing leads

4. Automation Flow

- User submits form
- Data stored in CRM
- WhatsApp message sent automatically
- Email confirmation sent
- Admin notified

5. WhatsApp Flow

Pre-filled message:

“Hi Mostra Exhibition Gallery, I’m interested in your exhibitions/collaboration.”

6. SEO & Compliance

- Privacy Policy page
- Terms & Conditions
- Business details
- Contact information
- Keywords optimization

7. Tech Stack (Suggested)

- Frontend: React / Webflow / Framer
- Backend: Node.js / Firebase
- Integrations: Interakt, Instagram API, Email SMTP

8. Design Style

- Minimal luxury theme
- Black & white aesthetic
- High-quality visuals

- Mobile responsive

9. Goal

- Portfolio website
- Lead generation system
- WhatsApp communication hub
- Marketing automation platform
